For your review is pricing on the Smart items you requested. These products are not currently in stock - lead time is several weeks. If you need anything further, please feel free to contact me anytime.

By the way, have you ever used any wireless tablets? These are neat devices that allow the presenter or audience member to control the computer from anywhere in the room. They can also write notes on the tablet and then those notes are seen in real time on the whiteboard/screen. You can also have full control of the computer from the tablet. They are very neat gadgets that really add some versatility as well as the "wow factor" to your presentations. They are easy to use and will help you get the most out of your system. They work great with or without an interactive whiteboard. Please see the demo video in the link below.

You will need a projector to make this work. You can use the projector you have as long as it puts on an image which is the correct size and shape. If you are unsure, we can check on that for you.

How to place your order

- Fax or email us your purchase order: 732-222-7088 or orders@Touchboards.com
- Or call us at 866-942-6273 | 732-222-1511
- Or use the link below to order online using a credit card or PayPal.

If you fax a purchase order in please make sure to do 3 things. A) call us to verify we received the order. B) Make sure the quote number is listed on the PO as well as the email you would like tracking sent to. C) Make sure shipping is listed on the PO. The order will not be processed until the shipping rate is listed so to avoid any delays, please note the shipping rate we have quoted.

Best Regards,

Patrick Mullaney
